

COMBI BUR - SYNOPSIS

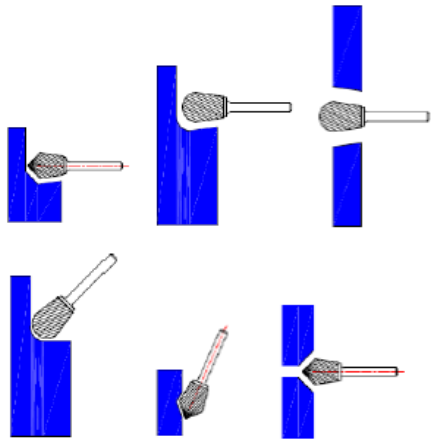

Introduction:

- Versatility to suit almost any application

Features & Benefits:

- Unique designed tooth geometry & shape combinations
 - 14 exclusive new combination shaped burs to suit all your complex applications
 - Maximises productivity by reduced downtime
 - Versatile - Can be used on a wide variety of materials
- CNC Machined - high consistent quality
- Manufactured from high quality sintered tungsten carbide – guaranteed high performance and durability
- Manufactured to strict quality control standards - Incorporates 100% inspection of brazed joints
- Combination of ATA air tool with STEEL cut geometry - gives a guaranteed smoother grinding operation

Range Details:

- 14 different configurations
- Available in Metric & Imperial
- 5pcs & 10pcs bur kits available

Targeted Industries:

- Transportation
- Aerospace
- Foundries

Applications

- Combi bur geometry and design allows easy grinding where deburring, edging and blending is required on a multitude of materials
